

Matter Of The Heart

Intro: G/Am/C/C#/D
G/Am/C/G

G **Am**
Don't know what you think anymore
C **D/C/G**
Don't know what you're gonna say
D **C**

G
We exploded in the glare of the full moon
Am **C/C#/D**
At the end of the longest day

G **D** **C** **G**
I've lived the longest night since then
Am **D**
In the worst kind of pain

G **Am** **C**
But I'm a fool for your smile even once in
a while
Am **D**
I'd do it all again

G **Am** **C/C#/D**
Chorus: We were in a bind
C **G**
We knew it from the start
D **C**
G
You might think it's a matter of the mind
Am/C/D
G/C/C#/D/G/Am/C/G
But I know it's a matter of the heart

Don't know what you feel anymore
Don't know what you're gonna do
I'm the one who's knockin' at your door
If the person inside is you
I was shattered in the haze of a dead
summer's daze
I didn't wanna see the sun
There were no answers to calm my fears
There was no place to run (cho.)

F
I know we had somethin' that filled up
this space

C **G**
That now is forlorn and empty

F
What sent you runnin' to some other
place

C **D**
Guarding words that only could've
meant me

Don't know who you are anymore
Don't know where you're gonna be
I never promised more than I delivered
Never was anyone but me
Now I'm sifting through these blues
These few scattered clues that you left
behind
I hope one day you realize
What we didn't try to find (cho.)
